

***Welcome to the Webpage of  
Superintendent William G. Caron, Ed.D.***

**May 2017**

As you are reading this newsletter, we are preparing for the end of another outstanding school year here at Scales Mound School. It is amazing how quickly the school year went by and how many wonderful events are now in the SMS history book. From Grease to academic bowls, football to softball, our students have been very busy. Our talented musicians and choir students entertained us at concerts and the art students wowed the county at the annual Youth Art Festival at Chestnut Mountain.

Scales Mound is an outstanding school filled with hard working students and staff. As we complete the 2017 school year, we look forward to big dreams for 2018. You will be hearing about our new mission and beliefs and our goals for the future as we complete our strategic planning process. The Strategic Plan will be what guides us over the course of the next five years as we continue to grow as a school, district, and community.

This is always an exciting time with the end of the school year, graduations right around the corner, and summer just ahead. It is also exciting to be planning for the future and what that will hold for our students and staff.

Have a great end of the year.

Go Hornets!

Dr. Bill Caron  
Superintendent
