Further, the District will not knowingly enter into agreements with any entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities under Board policy 8:20, *Community Use of School Facilities*. Any student may file a discrimination grievance by using the Uniform Grievance Procedure.

Sex Equity

No student shall, based on sex, sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student may file a sex equity complaint by using the Uniform Grievance Procedure. A student may appeal the School Board's resolution of the complaint to the Regional Superintendent of Schools (pursuant to 105 ILCS 5/3-10 of the School Code) and, thereafter, to the State Superintendent of Education (pursuant to 105 ILCS 5/2-3.8 of the School Code).

Surveys

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District's educational objectives as identified in Board policy 6:10, *Educational Philosophy and Objectives*, or assist students' career choices. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys Created by a Third Party

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent(s)/guardian(s) may inspect the survey or evaluation, upon their request and within a reasonable time of their request.

This section applies to every survey: (1) that is created by a person or entity other than a District official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Survey Requesting Personal Information

School officials and staff members shall not request, nor disclose, the identity of any student who completes any survey or evaluation (created by any person or entity, including the District) containing one or more of the following items:

1. Political affiliations or beliefs of the student or the student's parent/guardian.
2. Mental or psychological problems of the student or the student's family.

The student's parent(s)/guardian(s) may:

1. Inspect the survey or evaluation upon, and within a reasonable time of, their request, and/or
2. Refuse to allow their child or ward to participate in the activity described above. The school shall not penalize any student whose parent(s)/guardian(s) exercised this option.

Instructional Material

A student's parent(s)/guardian(s) may inspect, upon their request, any instructional material used as part of their child/ward's educational curriculum within a reasonable time of their request.

The term "instructional material" means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term “invasive physical examination” means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

The above paragraph does not apply to any physical examination or screening that:

1. Is permitted or required by an applicable State law, including physical examinations or screenings that are permitted without parental notification.
2. Is administered to a student in accordance with the Individuals with Disabilities Education Act (20 U.S.C. §1400 *et seq.*).

3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Residence

Resident Students

Only students who are residents of the District may attend the District school without a tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. If the District knows the current address of the child's natural or adoptive parent, the District shall request in writing that the person complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian made a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Nonresident Students

Non resident students may not attend District schools; the only exception being non resident children of full-time employees.

Homeless Children

Any homeless child shall be immediately admitted and attend the District school that the child attended when permanently housed or in which the child was last enrolled, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. A homeless child living in any District school's attendance area may attend school. Transportation shall be arranged according to State law. If a dispute arises regarding a homeless child's rights, the Superintendent shall inform his or her parents/guardians of the availability of an investigator, sources for low-cost or free legal assistance, and other advocacy services in the community. Board policy 6:140, *Education of Homeless Children*, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student's Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a non-resident of the District for whom tuition is required to be charged, he or she on behalf of the Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall detail the specific reasons why the Board believes that the student is a nonresident of the District and shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by the School Code, 105 ILCS 5/10-20.12b.

Attendance and Truancy

Compulsory School Attendance

This policy applies to individuals who have custody or control of a child: (a) between the ages of six (on or before September 1) and 17 years (unless the child has graduated from high school), or (b) who is enrolled in any of grades kindergarten through 12 in the public school regardless of age. Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because his or her religion forbids secular activity on a particular day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student's absence. A valid cause for absence includes illness, observance of a religious holiday, death in the immediate family, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student's safety or health, or other reason as approved by the Superintendent or designee.

Absenteeism and Truancy Program

The Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and Board policy. The program shall include but not be limited to:

1. A protocol for excusing a student from attendance who is necessarily and lawfully employed. The Superintendent or designee is authorized to determine when the student's absence is justified.
2. A protocol for excusing a student in grades 6 through 12 from attendance to sound *Taps* at a military honors funeral held in Illinois for a deceased veteran.
3. A process to telephone, within two hours after the first class, the parents/guardians of students in grade 8 or below who are absent without prior parent/guardian notification.
4. A process to identify and track students who are truants, chronic or habitual truants, or truant minors as defined in the School Code, Section 26-2a.
5. A description of diagnostic procedures for identifying the cause(s) of a student's unexcused absenteeism, including interviews with the student, his or her parent(s)/guardian(s), and staff members or other people who may have information about the reasons for the student's attendance problem.
6. The identification of supportive services that may be offered to truant or chronically truant students, including parent-teacher conferences, student and/or family counseling, or information about community agency services. See Board policy 6:110, *Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program*.

7. A process for a 17 year old resident to participate in the District's various programs and resources for truant. The student must provide documentation of his/her dropout status for the previous 6 months. A request from an individual 19 years of age or older to re-enroll after having dropped out of school is handled according to provisions in 7:50, *Students School Admissions and Student Transfers To and From Non-District Schools*.
8. A process to request the assistance and resources of outside agencies, such as, the juvenile officer of the local police department or the truant office of the appropriate Regional Office of Education, if truancy continues after supportive services have been offered.
9. A protocol for cooperating with non-District agencies including County or municipal authorities, the Regional Superintendent, truant officers, the Community Truancy Review Board, and a comprehensive community based youth service agency. Any disclosure of school student records must be consistent with Board policy 7:340, *Student Records*, as well as State and federal law concerning school student records.
10. An acknowledgement that no punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against a chronic truant for his or her truancy unless available supportive services and other school resources have been provided to the student.
11. The criteria to determine whether a student's non-attendance is due to extraordinary circumstances shall include economic or medical necessity or family hardship and such other criteria that the Superintendent believes qualifies.
12. A process for the temporary exclusion of a student 17 years of age or older for failing to meet minimum academic or attendance standards according to provisions in State law. A parent/guardian has the right to appeal a decision to exclude a student.

Religious Observance

A student shall be released from school, as an excused absence, for the purpose of observing a religious holiday. The parent(s)/guardian(s) must give written notice to the District 5 days before the student's anticipated absence.

The parent(s)/guardian(s)'s written notification of the student's anticipated absence shall satisfy the District's requirement for a written excuse when the student returns to school.

The Superintendent shall develop and distribute to teachers appropriate procedures regarding student absences for a religious holiday which include a list of religious holidays on which students shall be excused from attendance, how teachers are notified of a student's impending absence, and the State law requirement that teachers provide the student an equivalent opportunity to make up any examination, study, or work requirement.

Religious Instruction

A student shall be released from school for a day or portion of a day for the purpose of religious instruction. Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students

Required Health Examinations and Immunizations

A student's parent(s)/guardian(s) shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grades 6 and 12.

As required by State law:

1. The required health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening is a required part of each health examination; diabetes testing is not required.
3. Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening. Once a student presents proof that he or she received a developmental screening or a social and emotional screening, the school may, with a parent/guardian's consent, make available appropriate school personnel to work with the parent/guardian, child, and provider who signed the screening form to obtain any appropriate evaluations and services.
4. Before admission and in conjunction with required physical examinations, parents/guardians of children between the ages of one and seven years must provide a statement from a physician that their child was risk-assessed or screened for lead poisoning.
5. The IDPH will provide all female students entering sixth grade and their parents/guardians information about the link between human papilloma virus (HPV) and cervical cancer and the availability of the HPV vaccine.

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by October 15 may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

All new students who are first-time registrants shall have 30 days following registration to comply with the health examination and immunization regulations.

Eye Examination

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

Dental Examination

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year.

Exemptions

In accordance with rules adopted by the IDPH, a student will be exempted from this policy's requirements for:

1. Religious or medical grounds, if the student's parents/guardians present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented, the Superintendent or designee shall immediately inform the parents/guardians of exclusion procedures pursuant to Board policy 7:280, *Communicable and Chronic Infectious Disease* and State rules if there is an outbreak of one or more diseases from which the student is not protected;
2. Health examination or immunization requirements on medical grounds if a physician provides written verification;
3. Eye examination requirement if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
4. Dental examination requirement if the student's parents/guardians show an undue burden or a lack of access to a dentist.

Homeless Child

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. Board policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

Search and Seizure

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph applies to student vehicles parked on school property. In addition, Building Principals shall require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle, and personal effects therein, without notice and without suspicion of wrongdoing.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objectives and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students;
2. In the presence of a school administrator or adult witness; and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a

social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and it does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7)

Bullying includes *cyberbullying* and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. *Cyberbullying* includes the

creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of *bullying*. *Cyberbullying* also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of *bullying*.

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

School personnel means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the following requirements:

1. Using the definition of bullying as provided in this policy, the Superintendent or designee shall emphasize to the school community that: (1) the District prohibits bullying, and (2) all students should conduct themselves with a proper regard for the rights and welfare of other students. This may include a process for commending or acknowledging students for demonstrating appropriate behavior.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the District Complaint Manager or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District Complaint Manager or any staff member. Anonymous reports are also accepted.

Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform parent(s)/guardian(s) of all students involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.
5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
 - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
 - b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
 - c. Notifying the Building Principal or school administrator or designee of the report of the incident of bullying as soon as possible after the report is received.
 - d. Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Superintendent or designee shall investigate whether a reported act of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying **is prohibited**. A student's act of reprisal or retaliation will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.

8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.
10. The Superintendent or designee shall post this policy on the District's Internet website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must also be distributed annually to parents/guardians, students, and school personnel, including new employees when hired.
11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy's outcomes and effectiveness. This process shall include, without limitation:
 - a. The frequency of victimization;

Teen Dating Violence Prohibited

Engaging in teen dating violence that takes place at school, on school property, at school-sponsored activities, or in vehicles used for school-provided transportation is prohibited. For purposes of this policy, the term *teen dating violence* occurs whenever a student who is 13 to 19 years of age uses or threatens to use physical, mental, or emotional abuse to control an individual in the dating relationship; or uses or threatens to use sexual violence in the dating relationship.

The Superintendent or designee shall develop and maintain a program to respond to incidents of teen dating violence that:

1. Fully implements and enforces each of the following Board policies:
 - a. 7:20, *Harassment of Students Prohibited*. This policy prohibits any person from harassing, intimidating, or bullying a student based on the student's actual or perceived characteristics of sex; sexual orientation; gender identity; and gender-related identity or expression (this policy includes more protected statuses).
 - b. 7:180, *Prevention of and Response to Bullying, Intimidation, and Harassment*. This policy prohibits students from engaging in bullying, intimidation, and harassment at school, school-related events and electronically. Prohibited conduct includes threats, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying.
2. Encourages anyone with information about incidents of teen dating violence to report them to any of the following individuals:
 - a. Any school staff member. School staff shall respond to incidents of teen dating violence by following the District's established procedures for the prevention, identification, investigation, and response to bullying and school violence.
 - b. The Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, or a Complaint Manager identified in policy 7:20, *Harassment of Students Prohibited*.
3. Incorporates age-appropriate instruction in grades 7 through 12, in accordance with the District's comprehensive health education program in Board policy 6:60, *Curriculum Content*. This includes incorporating student social and emotional development into the District's educational program as required by State law and in alignment with Board policy 6:65, *Student Social and Emotional Development*.
4. Incorporates education for school staff, as recommended by the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, or a Complaint Manager.
5. Notifies students and parents/guardians of this policy.

Student Behavior

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student's misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

When and Where Conduct Rules Apply

A student is subject to disciplinary action for engaging in *prohibited student conduct*, as described in the section with that name below, whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including, but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

Prohibited Student Conduct

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling, or offering for sale:
 - a. Any illegal drug or controlled substance, or cannabis (including medical cannabis, marijuana, and hashish).
 - b. Any anabolic steroid unless it is being administered in accordance with a physician's or licensed practitioner's prescription.
 - c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a physician's or licensed practitioner's prescription.
 - d. Any prescription drug when not prescribed for the student by a physician or licensed practitioner, or when used in a manner inconsistent with the prescription or prescribing physician's or licensed practitioner's instructions. The use or possession of medical

cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited.

- e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
- f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.
- g. "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.
- h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

- 4. Using, possessing, controlling, or transferring a "weapon" as that term is defined in the Weapons section of this policy, or violating the Weapons section of this policy.
- 5. Using or possessing an electronic paging device. Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone. Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student's individualized education program (IEP); (c) it is used during the student's lunch period, or (d) it is needed in an emergency that threatens the safety of students, staff, or other individuals.
- 6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.
- 7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member's request to stop, present school identification, or submit to a search.
- 8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.

9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
10. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.
11. Teen dating violence, as described in Board policy 7:185, *Teen Dating Violence Prohibited*.
12. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
13. Entering school property or a school facility without proper authorization.
14. In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.
15. Being absent without a recognized excuse; State law and School Board policy regarding truancy control will be used with chronic and habitual truants.
16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.
17. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
18. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
19. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the

student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus Conduct*.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended shall also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled shall also be restricted from being on school grounds and at school activities.

13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), “look-alikes,” alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including “look-alikes” of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent’s determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student’s ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, State Police, and any involved student's parent/guardian. "School grounds" includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

Suspension Procedures

In-School Suspension

The Superintendent or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.
2. Students are supervised by licensed school personnel.
3. Students are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.

Out-of-School Suspension

The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
 - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
 - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
 - d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
 - e. Depending upon the length of the out-of-school suspension, include the following applicable information:
 - i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
 - a) A threat to school safety, or
 - b) A disruption to other students' learning opportunities.
 - ii. For a suspension of 4 or more school days, an explanation:

- a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
- b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
- c) That the student's continuing presence in school would either:
 - i) Pose a threat to the safety of other students, staff, or members of the school community, or
 - ii) Substantially disrupt, impede, or interfere with the operation of the school.
- iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
- 5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
- 6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

Expulsion Procedures

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
 - a. Include the time, date, and place for the hearing.
 - b. Briefly describe what will happen during the hearing.
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
 - d. List the student's prior suspension(s).
 - e. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
 - f. Ask that the student or parent(s)/guardian(s) or attorney inform the Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney's name and contact information.
2. Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from the Dept. of Human Services to consult with the Board.
3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student. The student and his or her parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer's report, the Board shall decide the issue of guilt and take such action as it finds appropriate.
4. If the Board acts to expel the student, its written expulsion decision shall:
 - a. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
 - b. Provide a rationale for the specific duration of the recommended expulsion.

Conduct Code for Participants in Extracurricular Activities

The Superintendent or designee, using input from the Student Activities Committee (SAC), shall develop a conduct code for all participants in extracurricular activities consistent with Board policy. The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants that failure to abide by it could result in removal from the activity. The conduct code shall be reviewed by the Building Principal periodically at his or her discretion and presented to the School Board.

Participants in extracurricular activities must abide by the conduct code for the activity and Board policy 7:190, *Student Behavior*. All coaches and sponsors of extracurricular activities shall annually review the conduct code with participants and provide participants with a copy. In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Extracurricular Drug and Alcohol Testing Program

The District maintains an extracurricular drug and alcohol testing program in order to foster the health, safety, and welfare of its students. Participation in extracurricular activities is a privilege and participants need to be exemplars. The program promotes healthy and drug-free participation.

Each student and his or her parent(s)/guardian(s) must consent to having the student submit to random drug and alcohol testing in order to participate in any extracurricular activity. Failure to sign the District's "Random Drug and Alcohol Testing Consent" form will result in non-participation.

The Superintendent or designee shall develop procedures to implement this policy. No student shall be expelled or suspended from school as a result of any verified positive test conducted under this program other than when independent reasonable suspicion of drug and/or alcohol usage exists. This program does not affect the District policies, practices, or rights to search or test any student who at the time exhibits cause for reasonable suspicion of drug and/or alcohol use.

Performance Enhancing Drug Testing of High School Student Athletes

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance enhancing substance on its banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition. IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board policy 7:190, *Student Behavior*.

Extracurricular Activity Eligibility Random Drug Testing

Philosophy/Purpose

The Board of Education believes that the use of prohibited substances: alcohol, tobacco, or illegal drugs by students who participate in extracurricular activities presents a particular hazard to the health and welfare of students and those who compete with those students. The Board recognizes the intrinsic values associated with participation in extracurricular activities and encourages students to participate. However, the Board is committed to the principle that the opportunity to participate in any extracurricular activities, students must agree to submit to testing for the use of prohibited substances, if selected, in accordance with this policy.

This policy has been adopted by the Board of Education of Scales Mound CUSD 211 and applies to all students, grades 9-12, who participate in those extracurricular activities listed herein. This policy is in tandem with the Scales Mound CUSD 211 Extracurricular Code of Conduct and all other policies regarding student conduct.

The District recognizes that there is a high incidence of alcohol, tobacco and drug use by students nationwide. The District also recognizes that some Scales Mound High School students, and in particular, participants in extracurricular activities have used and/or may experiment with illegal drugs, alcohol and/or tobacco during their high school years. Because participants in extracurricular activities are especially respected and held in high esteem to by the student body, they are expected to be good examples of conduct, sportsmanship, and training, which includes abstaining from the use of drugs, alcohol, and tobacco. Moreover, participants in extracurricular activities who use illegal substances can be a danger to themselves both in and out of the extracurricular activity.

In order to provide for the health and safety of the individual participant and other extracurricular participants, as well as, to provide a legitimate reason for the students to say "NO" to drug, alcohol and tobacco use, and to provide an opportunity for those abusing alcohol, tobacco and/or drugs to receive help in locating programs that can provide assistance, the District is conducting a random testing program for extracurricular participants. The program is not punitive. It is designed to prevent drug, alcohol, and tobacco usage, to educate student extracurricular participants as to the serious physical, mental and emotional harm caused by drug, alcohol, and tobacco use/abuse, to create and maintain a safe and drug free environment for student athletes, and to assist them in getting help when needed.

The purpose of this policy is to deter the use of prohibited substances and not to provide a means, which the District may use to discipline a student other than by disqualification from participation in extracurricular activities. Accordingly, the results of any test administered under this policy shall be used only for determination of eligibility to participate in extracurricular activities and for no other disciplinary purpose.

Definitions

A. Extracurricular Activities

This consent form must be signed by the student and parents/guardians by the 5th school attendance day or prior to the first practice session when an activity begins prior to the onset of the school year. Students deciding to try out or participate in a extracurricular activity after the first sign-up deadline will be required to be tested at the parents'/guardians' expense after the signed consent form is returned. This testing will occur at the contracted agency prior to participation. The extracurricular participant will then remain eligible for random testing for the remainder of the school year.

Withdrawal of Consent

Consent for participation may be withdrawn under the following conditions:

1. Should a student be unsuccessful in trying out for a the team/activity under the tryout procedures outlined choose not to be involved in any other activity for the remainder of the school year, the parents/guardians shall send a letter to the Principal or his/her designee so indicating and requesting the removal of the student's name form the random list.

complete the test as instructed, the extracurricular participant will be considered in violation of this policy and automatically be ineligible as a extracurricular participant until testing is completed.

Confidentiality

The results of any test administrated under the terms of this policy shall be kept confidential and disclosed only to the extracurricular participant, his/her parent/guardian, and school officials designated by the Superintendent. The results of the testing shall not be used as a basis for any disciplinary action other than disqualification as provided for in the Scales Mound High School Extracurricular Code of Conduct. The test results will not be part of the extracurricular participant permanent record but will be kept in a secure file in the school office. The results of testing, negative or positive, will be kept until the student graduates. At that time all results/records of this policy related to individual students will be purged.

Under this testing program, no staff member, coach, or sponsor shall divulge any information to anyone about a particular student or disposition of the student involved, other than by order of a court or competent jurisdiction.

Random Selection of Extracurricular Participants for Testing

At the beginning of each school year, each extracurricular participant shall be assigned a number. The selection of numbers will be computer generated and will include an M or F for male/female designation of students to help with staffing needs for the tests. Students will be eligible for random testing throughout the school year. There will be student numbers selected for each week of the month; student numbers will be forwarded to the Principal or his/her designee, and students will be tested in the order the numbers are selected.

Notification of Extracurricular Participant Selection/Absence

The selected extracurricular participants will be notified to report to the Principal's office on the day of the test. The student will then be escorted to the test site. After testing, a extracurricular participant's number will be returned to the testing population and subject to re-selection during the next testing cycle. Extracurricular participants will be subject to random testing throughout the school year.

Student Transfers

A student transferring to Scales Mound High School will be provided a copy of this policy. Transfer students and parents will be given a reasonable period of time (not to exceed 5 school days) to determine whether or not the student intends to participate in extracurricular activities. If, within the period of time given, the consent form is signed appropriately, the student will be added to the random list, and will be subject to testing throughout the year. If a decision is made to participate after the original timeline for consent, the student must be tested at the parent's /guardian's expense prior to participation.

Program Details

Testing Procedures

1. Testing may occur on any day, Monday through Friday. Names will be drawn from a pool of all student participants. Each student participant may be tested at any time during the year.
2. No student will be given advance notice or early warning of the testing.
3. Tobacco, drug and/or alcohol testing may be performed by breath alcohol testing and/or urinalysis. Upon being selected for breath alcohol testing, a student must provide an adequate amount of breath so that the measuring device can measure any alcohol concentration in the breath. Upon being selected for a urinalysis test, the student shall provide a sample of "fresh" urine according to the quality control standards and policy of the laboratory conducting the urinalysis.

4. A staff member will accompany the student until he or she produces an adequate urine specimen. If unable to produce a specimen, the student will be given up to 24 ounces of fluid. If unable to produce a specimen within 2 hours, the student will be taken to the Building Principal's office and told he or she is ineligible for participation in any extracurricular activity. In addition, the parent(s)/guardian(s) will be telephoned and informed the student is unable to produce a sample for the testing procedure and he or she must be tested at a later date in order to be eligible.
5. All specimens registering below 90.5 degrees or above 99.8 degrees Fahrenheit will be invalid. The head strip on each specimen bottle indicates the validity of the urine specimen by temperature. If a specimen is invalid, the student must provide another specimen.
6. A student will be ineligible for all extracurricular activities for the remainder of the school year if he or she tampers or cheats during the collection. This will be reported to the parent(s)/guardian(s).
7. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he or she left the collection site.
8. Each specimen is given to the laboratory for testing for alcohol, controlled substances (that may include all drugs listed as controlled substances under Illinois law), and "performance enhancing" drugs, such as steroids.

Chain of Custody

1. The laboratory will provide training and direction to appropriate staff members, set up the collection environment, guarantee specimens, and supervise the chain of custody. To maintain anonymity, the student will be assigned a number.
2. The Building Principal or designee will escort students to the collection site. No student is allowed to go to his or her locker. The Building Principal or designee should minimize classroom interruptions. Student participants may be summoned after school, perhaps during practice time.
3. Before a student's urine is tested by the laboratory, he or she must sign any form that may be required by the testing laboratory. If a student chooses, he or she may notify the administrator that he or she is taking a prescription medication.
4. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle and the student signs that the specimen is sealed. The seal may be broken only by the lab testing the specimen.
5. If the seal is tampered with or broken, after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will remain eligible for extracurricular activities subsequent to a retest.
6. The supervisor obtaining the urine specimen will be of the same gender as the student. Students will be instructed to remove all outerwear and wash their hands in the presence of the supervisor before entering the restroom stall. The stall door will be closed while the student provides a urine specimen. The supervisor will wait outside the restroom stall. The student will have 2 minutes to produce a urine specimen. The commode will contain a blue dye so the water cannot be used to dilute the sample. If applicable, the faucets in the restrooms will be shut off.
7. After it is sealed, the specimen will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results to the Building Principal or designee.
8. In order to maintain confidentiality, the student's name will not be on the urine specimen container. Instead, the student's random identification number will appear on the container.

Test Results

1. The Building Principal or designee will be notified of a student testing “positive”. The Building Principal or designee will notify the student and his or her parent(s)/guardian(s). The student or his or her parent(s)/guardian(s) may submit any documented prescription or explanation of a “positive” test result.
2. In addition, the student or parent(s)/guardian(s) may request that the urine specimen be tested again by a certified laboratory at their cost.
3. If the test is verified “positive,” the Building Principal or designee will meet with the student and his or her parent(s)/guardian(s). The student and parent(s)/guardian(s) will be given the names of counseling and assistance agencies.
4. Information on a verified “positive” test result will be shared on a need-to-know basis with the student’s coach or sponsor. The results of “negative” tests will be kept confidential.
5. Drug testing result sheets will be returned to the Superintendent or designee identifying students by number and not by name. Names will not be kept in open files or on any computer. Result sheets will be locked and secured in a location to which only the Building Principal or designee has access.

Financial Responsibility

1. Under this policy, the School District will pay for all initial random drug tests and tests ordered by the School District.
2. A request for another test of a “positive” urine specimen is the financial responsibility of the student’s parent(s)/guardian(s).
3. Counseling and subsequent treatment by non-school agencies is the financial responsibility of the student’s parent(s)/guardian(s).

Testing Negative

The parents or guardians of the extracurricular participant who tests negative will be notified by mail as soon as is practical.

Testing Positive

If the test results are positive, the extracurricular participant will be considered in violation of the Scales Mound High School Extracurricular Code of Conduct. The student and parents/guardians will be notified as soon as practical. The consequences of the violation are outlined in the Extracurricular Code of Conduct.

Non-Participants

Any parent or guardian of a District student who is not a extracurricular participant may have the option of enrolling that student in this random substance abuse testing program. The student will be subject to all policies and procedures herein contained.

Enforcement

The provisions of this policy are considered an addition to all other rules and regulations governing student conduct and discipline in extracurricular activities.

Expenses

Funding for this program will be by Board of Education action.

Severability

If any section of this policy cannot be enforced according to its terms, that section will be severed and will not affect the enforceability of the remainder of this policy.

Exemption from Physical Education

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

Special activities in physical education will be provided for students whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act, prevents their participation in the physical education courses.

State law prohibits a school board from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated in 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent(s)/guardian(s) believe that it is necessary for the student to take a medication during school hours, they must request that the school dispense the medication to their child/ward and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parent(s)/guardian(s). No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

Self-Administration of Medication

A student may possess an epinephrine auto-injector, e.g. EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a *School Medication Authorization Form*. The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or the medication's storage by school personnel. Parent(s)/guardian(s) must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of medication or the storage of the medication by school personnel.

School District Supply of Undesignated Epinephrine Auto-Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine auto-injectors in the name of the District and provide or administer them as necessary according to State law. *Undesignated epinephrine auto-injector* means an epinephrine auto-injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine auto-injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

Void Policy; Disclaimer

The **School District Supply of Undesignated Epinephrine Auto-Injectors** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine auto-injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine auto-injectors.

Upon any administration of an undesignated epinephrine auto-injector, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Upon implementation of this policy, the protections from liability and hold harmless provisions as explained in Section 22-30(c) of the School Code apply.

No one, including without limitation parents/guardians of students, should rely on the District for the availability of an epinephrine auto-injector. This policy does not guarantee the availability of an epinephrine auto-injector; students and their parents/guardians should consult their own physician regarding this medication.

Food Allergy Management Program

School attendance may increase a student's risk of exposure to allergens that could trigger a food-allergic reaction. A food allergy is an adverse reaction to a food protein mediated by the immune system which immediately reacts causing the release of histamine and other inflammatory chemicals and mediators. While it is not possible for the District to completely eliminate the risks of exposure to allergens when a student is at school, a Food Allergy Management Program using a cooperative effort among students' families, staff members, and students helps the District reduce these risks and provide accommodations and proper treatment for allergic reactions.

The Superintendent or designee shall develop and implement a Food Allergy Management Program that:

1. Fully implements the following goals established in the School Code: (a) identifying students with food allergies, (b) preventing exposure to known allergens, (c) responding to allergic reactions with prompt recognition of symptoms and treatment, and (d) educating and training all staff about management of students with food allergies, including administration of medication with an auto-injector, and providing an in-service training program for staff who work with students that is conducted by a person with expertise in anaphylactic reactions and management.
2. Follows and references the applicable best practices specific to the District's needs in the joint State Board of Education and Ill. Dept. of Public Health publication *Guidelines for Managing Life-Threatening Food Allergies in Schools*, available at:
www.isbe.net/Documents/food_allergy_guidelines.pdf.
3. Complies with State and federal law and is in alignment with Board policies.

The Program shall include:

1. Protocols for administering youth suicide awareness and prevention education to students and staff.

 - a. For students in grades 7 through 12, implementation shall incorporate the training required by 105 ILCS 5/10-22.39 for school guidance counselors, teachers, school social workers, and other school personnel who work with students to identify the warning signs of suicidal behavior in adolescents and teens along with appropriate intervention and referral techniques, including methods of prevention, procedures for early identification, and referral of students at risk of suicide.
 - b. For all students, implementation shall incorporate Illinois State Board of Education (ISBE)-recommended guidelines and educational materials for staff training and professional development, along with ISBE-recommended resources for students containing age-appropriate educational materials on youth suicide and awareness, if available pursuant to Ann Marie's Law on ISBE's website.
3. Methods of intervention, including procedures that address an emotional or mental health safety plan for use during the school day and at school-sponsored events for a student identified as being at increased risk of suicide. Implementation will incorporate paragraph number 2, above, along with:
 - a. Board policy 6:65, *Student Social and Emotional Development*, implementing the goals and benchmarks of the Ill. Learning Standards and 405 ILCS 49/15(b) (requiring student social and emotional development in the District's educational program);

 5. Reporting procedures. Implementation of this requirement shall incorporate Board policy 6:270, *Guidance and Counseling Program*, and Board policy 7:250, *Student Support Services*, in addition to other State and/or federal resources that address reporting procedures.
 6. A process to incorporate ISBE-recommend resources on youth suicide awareness and prevention programs, including current contact information for such programs in the District's Suicide and Depression Awareness and Prevention Program.

Illinois Suicide Prevention Strategic Planning Committee

The Superintendent or designee shall attempt to develop a relationship between the District and the Illinois Suicide Prevention Strategic Planning Committee, the Illinois Suicide Prevention Coalition Alliance, and/or a community mental health agency. The purpose of the relationship is to discuss how to incorporate the goals and objectives of the Illinois Suicide Prevention Strategic Plan into the District's Suicide Prevention and Depression Awareness Program.

Student Records

School student records are confidential. Information from them shall not be released other than as provided by law. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction by a school employee, regardless of how or where the information is stored, except as provided in State or federal law as summarized below:

1. Records kept in a staff member's sole possession.
2. Records maintained by law enforcement officers working in the school.
3. Video and other electronic recordings (including without limitation, electronic recordings made on school buses) that are created in part for law enforcement, security, or safety reasons or purposes. The content of these recordings may become part of a school student record to the extent school officials create, use, and maintain this content, or it becomes available to them by law enforcement officials, for disciplinary or special education purposes regarding a particular student.
4. Any information, either written or oral, received from law enforcement officials concerning a student less than the age of 17 years who has been arrested or taken into custody.

State and federal law grant students and parent(s)/guardian(s) certain rights, including the right to inspect, copy, and challenge school student records. The information contained in school student records shall be kept current, accurate, clear and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but parent(s)/guardian(s) shall have the right to object to the release of information regarding their child. However, the District will comply with an *ex parte* court order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to, or the consent of, the students' parent(s)/guardian(s).

The Superintendent shall fully implement this policy and designate an *official records custodian* for each school who shall maintain and protect the confidentiality of school student records, inform staff members of this policy, and inform students and their parents/guardians of their rights regarding school student records. Upon request, the District discloses school student records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law.
